

Mobile Wiping & Diagnostics Software

Secure & Certified Software to Erase & Test iPhone, iPad & Android Devices

BitRaser serves your purpose for a mobile wiping solution that ensures complete erasure of data stored on iPhone®, iPad® & Android® based phones when they are disposed, recycled or resold. Additionally the software allows performing a series of 50+ assisted & automated tests to gauge the operational efficiency of mobile devices.

Tested , Approved & Certified

Software with Excellent Capabilities

Secure Erasure

Securely erases data from iPhone, iPad, and Android devices beyond recovery using international erasure methods.

Accurate Diagnostics

Diagnose mobile devices through 50+ tests to check mobile components like Battery, Camera, GPS, Bluetooth, S Pen Air Motion, Force Touch, etc.

Global Data Wiping Methods

BitRaser Mobile Eraser supports 11 international erasure standards including NIST 800-88 Clear, DoD 3 passes, HMG etc.

ERP & API Integration

BitRaser Mobile is integrated with Makor ERP & RazorERP for seamless asset management. API is also available to integrate with other Asset management tools.

Cloud Console

BitRaser secure cloud console provides flexibility to create users, manage license distribution & maintain a central repository of reports & certificates.

Report For Audit Trails

Generates comprehensive reports that include details like erasure status, device model, IMEI number, capacity, diagnostic results, grading, etc.

Automate Data Wiping

The software automates erasure and diagnostics through configurable settings, saving time and boosting efficiency.

Multiple Deployment Options

BitRaser Mobile is available for Windows, Mac & Barebone hardware (Linux-based App). Erase smartphones in one go by deploying as per your requirements.

Benefits of Data Erasure

HELPS MEET COMPLIANCE

PREVENTS DATA BREACH

PROMOTES DEVICE REUSE

REDUCES CARBON EMISSIONS

Other Specifications

✓ Certified Data Erasure & Reporting

- Unified interface for mobile erasure & diagnostics
- Simultaneously erase & test upto 40 devices
- Erase working iPhone devices with broken screens*
- Erase Apple watches securely
- Erase Apple locked devices
- Perform 50+ diagnostics tests to check health of mobile device
- Supports erasure & diagnostics of iOS devices running on iOS v7 & above
- Supports erasure & diagnostics of Android devices running on OS v5 & above
- Allows grading of mobile devices
- Generates verifiable erasure and diagnostics report for audit
- Allows saving, erasure & diagnostic reports in PDF, CSV & XML

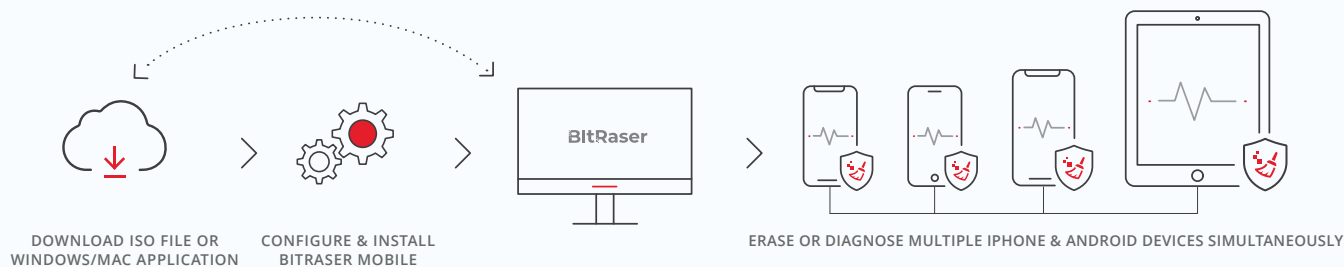

✓ Configuration & Automation

- Easy Installation on Windows, Mac & bare-bone hardware
- Supports checking jail-break on iPhones
- Shows FMIP Status on the iOS device
- Supports MDM detection with supervision & removal
- Allows customization to pre-configure erasure & diagnostic process
- Seamlessly pull erasure & diagnostics reports into ERP
- Ability to print labels for erased or diagnosed devices
- Option to customize USB port name for easy identification

* Linux edition only

BitRaser Deployment

Deployment options available for Windows, Mac & barebone devices.

10+ GLOBAL STANDARDS

NIST 800-88 Clear
 NIST 800-88 Purge
 US DOD 5220.22-M (3 Passes)
 US DOD 5200.22-M (ECE) (7 Passes)
 Pseudo Random
 B Schneier's Algorithm (7 Passes)
 Peter Gutmann (35 Passes)
 US Army AR380-19 (3 Passes)
 US Air Force AFSSI-5020 (3 Passes)
 British HMG IS5 (3 Passes)
 Zeroes
