

BitRaser for Mobile

Secure Data Erasure Software
for Mobile Devices

When we say it's gone,
it's gone.

BitRaser for Mobile is the most trusted solution to permanently erase all data stored on the internal memory of your Mobile devices; iPhone, iPad, iPod touch etc.

Meets statutory & regulatory compliance needs with tamper free audit trails for data security & privacy – SOX, GLB, HIPAA, ISO27001, EU-GDPR, PCI-DSS.

It is the perfect solution for ITADs, refurbishers and recyclers to facilitate the safe disposal, reuse or resale of mobile devices.

Technology you can TRUST

BitRaser is an innovation by Stellar, the global data recovery experts trusted by millions since 1993. BitRaser is created after applying decades of learnings of our data recovery research, development and engineering experts.

Secure data erasure software to wipe sensitive data on mobile devices beyond scope of recovery

BitRaser for Mobile is a privacy safeguarding software that permanently erases all data from mobile devices such as iPhone, iPad & other smartphones. Data once erased cannot be recovered, ensuring that sensitive data does not fall in wrong hands when mobile devices are disposed, recycled or sold.

BitRaser Capabilities

- Securely and permanently erase sensitive data from devices – iPhone, iPad, iPod touch & other mobile devices
- Performs high speed simultaneous erasure of upto 40 devices in the most efficient way
- Supports 9 International erasure standards including DoD 3 passes, DoD 7 passes, HMG etc.
- Generates 100% tamper proof erasure reports and certificates for audit trails for every device that is erased
- Option to customize report and certification with company logo and text
- Erase iPhone and iPad, which are not trusted
- Pay per use – No expiry of license

BitRaser Benefits

- Protects and safeguards privacy
- Efficient, saves time and resources
- Mitigate risks of theft and data leakage
- Maintain regulatory and audit compliances
- Manage erasure reports & certificates
- Customizable reporting

TECHNICAL SPECIFICATIONS

Certified Data Erasure

- Permanently erase data from mobile devices – iPhone, iPad etc.
- Erase iPhone and iPad even in recovery mode
- Erase working mobile devices with broken screens
- Supports erasure of iOS devices running on iOS 10, 9, 8, 7, 6, 5, 4, 3
- Simultaneous high-speed erasure of up to 40 devices
- Resume erasure by reconnecting disconnected devices

Configuration & Automation

- Easy and Intuitive installable application on Linux
- Option to choose from 9 international erasure standards like DoD 3 passes, DoD 7 passes etc.
- Label printing available with barcode, IMEI, serial, erasure status, date & custom value
- Option to edit and customise USB Port name for easy identification
- Option to provide asset tag and pre-report information

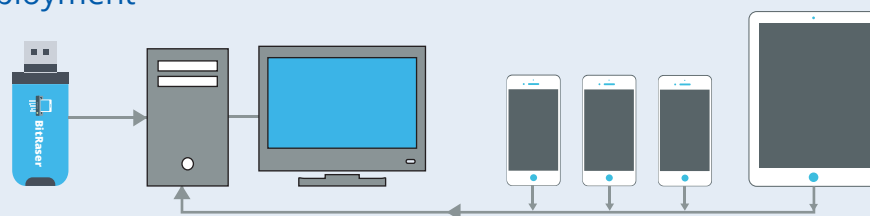

Reporting & Certification

- Generates 100% tamper proof erasure reports & certificates for audit trails
- Detailed reports with details such as device name, model, IMEI code, storage capacity etc.
- Customize report layout as per requirements
- Option to generate erasure certificate of individual device or an entire batch
- Automatically saves erasure report on the same computer from which erasure is performed

BitRaser for Mobile Deployment

Erase multiple devices simultaneously

Supported Erasure Standards

9 internationally recognized standards supported - **US DOD 5220.22-M (3 Passes)**, **US DOD 5200.22-M (ECE) (7 Passes)**, Zeros, Pseudo Random, B Schneier's Algorithm (7 Passes), Peter Gutmann (35 Passes), US Army AR 380-19 (3 Passes), US Air Force AFSSI 5020 (3 Passes), British HMG IS 5 (3 Passes)

Minimum System Requirements

Operating Systems: Ubuntu 64 bit 14 .1 & above ; Processor: x86 or x64, RAM: 4GB, Hard Disk: 10 GB of free space

Devices Supported

iPhone: iPhone 7, iPhone 7 Plus, iPhone 6S, iPhone 6S Plus, iPhone 6, iPhone 6 Plus, iPhone SE, iPhone 5S, iPhone 5C, iPhone 5, iPhone 4S

iPad: iPad Pro, iPad Mini 4, iPad Mini 3, iPad Air 2, iPad Mini 2, iPad Air, iPad Mini, iPad 4th Gen, iPad 3rd Gen, iPad 2,

iPod Touch
